The Bruces skill in the military art was of the highest order; and in his testament, as it is called, he bequeathed a legacy to his countrymen, which, had they known how to avail themselves of it, would have saved them the loss of many a bloody day.* If, however, his precepts could not save the Scottish nation from military losses, his example taught them to support the consequences with unshaken constancy. It is, indeed, to the example of this prince, and to the events of a reign so dear to Scotland, that we can distinctly trace that animated love of country which has been ever since so strong a characteristic of North Britons, that it has been sometimes supposed to limit their affections and services so exclusively within the limits of their countrymen as to render that partiality a reproach which liberally exercised is subject for praise. In the day of Alexander III. and his predecessors, the various tribes whom these kings commanded were divided from each other by language and manners : it was only by residing within the same common country that they were forced into some sort of connection : but after Bruces death we find little more mention of Scots, Galwegians, Picts, Saxons, or Strath-Clyde Britons. They had all, with the exception of the Highlanders, merged into the single denomination of Scots, and spoke * These verses are thus given by Mr. Tytler. I have, for the sake of rendering them intelligible, adopted the plan of modern spelling, retaining the ancient language. The original verses are in Latin leonines On foot should be alt Scottish weire f, By hill and moss themsel/es to bear : Let wood for walls be -- bow and spear And battle-axe their fighting gear: That enemies do them no
