

## The Marriage Pact: A Novel

This debut by M.J. Pullen launches a charming series about a group of thirty-somethings in Atlanta making surprising discoveries about friendship, love, and happily-ever-after. Marci Thompson always knew what life would be like by her thirtieth birthday. A large but cozy suburban home shared with a charming husband and two brilliant children. A celebrated career as a writer, complete with mahogany shelves and a summer book tour. A life full of adventure with her friends and family by her side. Instead, Marci lives alone in 480 square feet of converted motel space next to a punk rock band, hundreds of miles from her friends and family. She works in a temporary accounting assignment that has somehow stretched from two weeks into nine months. And the only bright spot in her life, not to mention the only sex she's had in two years, is an illicit affair with her married boss, Doug. Thirty is not at all what it is cracked up to be. Then the reappearance of an old friend with whom she had made a drunken marriage pact ten years earlier opens a long-forgotten door, and the lines between right and wrong, heartache and happiness are all about to get very blurry, as Marci faces the most difficult choices of her life. *The Marriage Pact* is a delightful debut that will have readers laughing, crying, and falling completely in love.
