Dorian Khalthrack and his clan of dragon shifters have long defended their home from threats both foreign and domestic, but the World Eaters were beyond even their power. With his home destroyed and his body broken, Dorian drifts through the ocean of stars. The only thing keeping him alive is the hope that he can prevent other worlds from being devoured by warning them of the World Eaters imminent arrival. On Earth, Harley Carter has spent her entire life pursuing things she doesn't understand. From a young age, she caught a glimpse at the things that lie just beyond our reality and it scarred her very soul. When Dorian Khalthrack crash lands on Earth, she feels an undeniable connection to him. She was instantly captivated by his perfect and chiseled body. She lost herself in his deep and fiery eyes, but beyond all that, she felt a connection to him. Dorian most certainly felt something when he looked upon her. Harley was a big beautiful woman with a voluptuous body and a spirit just as hot as Dorian's dragon fire. Perhaps it was destiny that carried him across the vast distance of space? Perhaps he was always meant to find her, to save her. One thing is certain: the World Eaters are coming. Dorian and Harley both have a role to play in the coming events. Their love will cross the boundaries of space and time as they seek out a way to save the world, and themselves. Seven Free Bonus Books included at the end of this book for a limited time only!
