

## Spirit of Error

A diabolical scientific discovery allows Islamic fundamentalist and secretive Nazi sympathizers to develop a deadly, and very specific, biological weapon for the final eradication of Israel and the genocide of Jews everywhere. As Israel and the Arab Bloc once again prepare for war, it becomes widely acknowledged that Israel will use nuclear weapons if national survival is at risk and the Arab Bloc will unleash radical new biological weapons in response. Michael Bradley, a brilliant inorganic chemist is swept up in the tide of war and finds himself alone in the Tibesti Highlands of Southern Libya. His goal is the destruction of the secret biological laboratory that has produced the genocidal biological weapon. A lightning paced thriller, Spirit of Error is a frightening description of what could be happening right now in Libya and the Middle East. In the tradition of Tom Clancy and Tim LaHaye, James J. Houts has crafted a story with ominous implications for Israel and the world.
