Excerpt from The History of England From the Revolution in 1688, to the Death of George II, Vol. 4: Designed as a Continuation of Hume, Embellished With Engravings on Copper and Wood, From Original Designs The chevalier dc St. George one evening entering the narrow lane that leads to the Paris opera, the barrier was immediately shut, and the sergeant of the guard immediately called to arms on which Monsieur de Vaudreuil, exempt of the French guards, advancing to Edward, Prince said he, I arrest you in the kings name by virtue of this order. At this instant the youth was surrounded by four grenadiers, in order to prevent any mischief he might have done with a case of pocket pistols which he always carried about him; and a guard was placed at all the avenues and doors of the opera-house, lest any tumult should have ensued among the populace.
